

Electric Pump HB139F / 89EUD01

(INPUT AC 220-240V)

Please ensure you follow any warnings or instructions supplied with your inflatable product. When not in use, store

INFLATION

- 1 Attach the air hose to the pump outlet marked 'inflate'. Critical - ensure you have locked the hose onto the pump before use.

- 2 Attach a suitable adaptor to the other end of the air hose, before connecting the adaptor to the product valve.

- 3 To attach adaptor, insert into end of air hose and twist to lock into position. Ensuring air release hole is not obstructed.

DEFLATION

- 1 Open the product valve(s) and allow as much air as possible to escape. The valve may have to be pinched to open the safety flap.

- 2 Attach the air hose to the pump outlet marked 'deflate'.

- 3 A) Connect valve, ensure the valve is open. B) Switch the pump to deflation mode.

WARNING!

- This electric pump is not a toy and must only be operated by an adult. Keep out of the reach of children.
- Do not leave the pump unattended during use.
- Children should be supervised to ensure that they do not play with the appliance.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- This pump is recommended for indoor use only - but if operated outdoors, is only suitable for supervised use in dry conditions.
- If the pump is operated outdoors, always ensure it is plugged in indoors.
- The use of an RCD circuit breaker, with a maximum trip current of 30mA, is also required if used outdoors.

- This pump is not suitable for damp conditions.
- Risk of electric shock, do not use this pump if wet or filled with water. Ensure wet products are dried before use.
- Extended operation can overheat the pump. Do not exceed 30 minutes of continuous operation.
- WARNING! The power supply cord connected to the pump must be discarded.
- Regularly check the pump for signs of wear.
- Do not use the pump to inflate car tyres.
- Disconnect from the mains when not in use.
- Ensure the air inlet / outlet does not become blocked.
- If the pump becomes hot during use, stop using it.
- When not in use store the pump indoors in a dry place.

se, store the pump sensibly so that the cord or pump does not become damaged.

When inflating products with a safety valve, ensure the long thin adaptor is used. Ensure nozzle of adaptor passes internal safety flap. (see fig.A)

5 Switch the pump on. DO NOT OVER INFLATE the product should be firm but not hard.

6 Once inflated, secure the valve closed with the valve bung or cap.

Connect the adaptor to the product valve, ensuring that the nozzle has passed the valve's safety flap, if fitted. Switch the pump on - ensure outlet does not become blocked during deflation.

Help the environment by disposing of your product responsibly. The wheeled bin symbol indicates that the product must not be disposed of in the domestic waste, as it contains substances which can be damaging to the environment and health. Please use designated collection points or recycling facilities when disposing of the item. More information can be found on: <http://www.recycle-more.co.uk>; <http://www.recyclenow.com>

Patch de réparation

Transparente, autocollante, pour réparer les crevaisons

En cas de crevaison accidentelle, découpez une rustine aux dimensions voulues. Les angles doivent être arrondis. La zone d'application de la rustine doit être parfaitement propre. Exercez une pression sur la rustine pour la faire adhérer à la surface perforée. Attendre 20 minutes avant de gonfler le matelas.

GB

Repair patch

Clear, self-adhesive for repairing punctures

In the event of an accidental puncture, cut out a suitable size patch. Make sure you round the corners of your repair patch to avoid peeling. Make sure area to be patched is clean. Press patch firmly over the puncture. Do not inflate for 20 minutes.

DE

Flicken

Transparent, selbstklebend, zum Reparieren von Löchern

Bei einem Loch in Ihrem AIRBED Flicken in der gewünschten Größe zuschneiden. Die Ecken sollen abgerundet sein. Die Reparaturstelle muss einwandfrei sauber sein. Flicken andrücken, damit er an der beschädigten Stelle anklebt. Matratze erst nach 20 Minuten aufpumpen.

IT

Patch

Trasparente, adesivo, per riparare le forature

In caso di foratura del materasso, ritagliate un patch della forma desiderata. Gli angoli del patch devono essere arrotondati. La zona d'applicazione deve essere perfettamente pulita. Premere con forza sul patch per farlo aderire. Non gonfiare il materasso per 20 minuti.
